## Kiwanis Club Hears Talk On Fluoridation

Dr. Albert W. Triant, local dentist, stated at a Granite City Kiwanis Club meeting Monday at the Elks Club that "those who oppose fluoridation are uninformed."

Dr. Triant, a 1958 graduate of the St. Louis University school of dentistry, cited a particular case in which presence of fluoride in drinking water had reduced tooth decay.

While serving in the Army in Colorado, where he was a dentist, Dr. Triant noted that where fluoride has been present in a natural state in the water, a small percentage of tooth decay is found.

In a clinical study, he added, it was shown that of the more than 1000 soldiers who came from areas in which natural fluoride was present, only 10% had signs of tooth decay.

He said that the Army dentists had ordered a retreat be made of the tooth conditions of the soldiers since they couldn't believe results of original check-ups. The second check reflected the findings of the first tests.

During his talk, the dentist distributed pamphlets prepared by the American Dental Association which refuted claims of fluoridation critics.

When asked what the per capita cost of fluoridation would be if placed in a municipal water system, Dr. Triant said it would not exceed the cost of having one tooth extracted.

In another segment of his talk, he showed color slides of dental diseases and corrective measures to be taken, and stressed the importance of choosing the right toothbrush. He said all toothpastes and powders are considered a good preventative measure.

Dr. Triant presented a recognition certificate by M. Freeman Wolfe, a member of the club.

## Scholastic Awards Program Planned At Madison JHS

A new scholastic awards program drawn up by the faculty of Madison Junior high school, which will provide special recognition for outstanding students, was approved by the Madison school board Tuesday night.

Purpose of the scholastic awards will be "to help those of honoring those students who have consistently exhibited outstanding academic achievement," the program's description states. It makes provision for the award of a certificate indicating outstanding achievement to each seventh grade student at MJHS who has been a member of the honor roll during every grading period of the current school year.

Eighth grade students who meet the same requirements will be entitled to a silver token award also indicating outstanding scholastic achievement. Gold Two-Year Awards.

Beginning with the 1961-62 school year, an eighth grade student who maintains a place on the school honor roll during both grades seven and eight will receive a gold token award. No gold token awards will be made at the end of the current school year, since the plan is not retroactive.

The plan also calls for "special consideration" in the case of a student "who proves himself capable of being on the honor roll" but "who should suffer an extended illness," thereby being absent.

Also to be considered for the awards are students who move into the district during the school year and prove themselves outstanding students by becoming members of the honor roll for every grading period during which they have attended MJHS.

Listing of the scholastic honor roll at the school is achieved by students who maintain at least a "B" average and have no grades lower than a "C" during any one grading period. The certificate and pin awards are to be made during a special recognition program at the conclusion of the school year.

## 3 Polling Places For Venice School Election

Polls for the April 8 Venice school election will be open to voters from noon to 7 p.m. on the election day, the Venice board of education has announced.

The school district has been divided into three precincts, with the polls at the same locations as in recent school district elections.

The precincts and their locations are:

No. 1 — All that part of the school district lying east of the center line of Main street within the corporate limits of Venice. Polling place: Venice high school building, 7th street and Broadway.

No. 2 — All that part lying west of the center line of Main street within the corporate limits of Venice. Polling place: The Melvin Dennis building, 102 Slough road.

No. 3 — All that part of the district which lies outside the city limits of Venice. Polling place: The David Curtis residence, 30 Harrison street, Williams addition, Venice township.

Registered voters will be balloting to elect two members to the Venice school board for three-year terms. The unopposed incumbents are Leo Davinroy and Thomas Foley.

## Interest In Summer Softball Loops Lags; More Teams Needed

Only 10 teams have indicated interest in four summer softball leagues being formed by the Granite City park district, and three additional teams can be handled. The Midgett division (11-13) lacks only one squad for a full complement of 12 teams.

Two teams can be added in the Buntan division (9-11), which presently has 15 teams registered and is likely to be the largest division. The Juvenile loop has signed 10 teams and only one more will be added before schedules in the league for 15-15-year-olds is drawn up.

The recreation director said no interest has been shown in forming a baseball league in the Junior division (15-17), and that plans for the division have been dropped.

Team sponsors have until April 17 to submit entry fees for their squads.

## GC STEEL 'A' LEAGUE BOWLING, THURSDAY

Providers' Office 3, Tin House 223, John Arai 201, 222, Bill Bunte 203, 200.

Two weeks remain before the deadline for entering the Granite City park district's men's singles handicap bowling tournament, and Harold Brown, park recreation director, said today that just 15 entries for the tournament have been received to date.

Brown added that at least 170 entries are needed for the tournament to "break even". The league, to take place on the Big Top Bowl and Bowland 14-16, 21-23 and 28-30. Entry blanks may be obtained at the participating bowling houses and at Frank's Card Shop. They should be completed and mailed to Brown at 1314 Niedringhaus avenue on or before noon Wednesday, April 5.

Top prize in the tournament is a trophy and \$10 U. S. savings bond. Awards for second, third and fourth place finishers are \$75 bond, \$50 bond and \$25 bond, with prizes to be awarded at the ratio of one for each ten entries thereafter. The entry fee is \$3 a bowler.

**Pet Ducks Missing From Home Of Michael Tondas**  
Two pet Mallard ducks, which disappeared Monday from the home of Michael Tondas, 1801 Pontoon road, are still missing, it was reported today.

Mrs. Tondas said the ducks, one female and one male, were mates and are tame. Although each duck is of the wild species, the drake has been a pet for more than four years and the female for about a year.

Inquiries were made at neighborhood schools and homes, but no one had apparently seen the fowls. Although wild ducks rarely become pets, their wings have not been clipped.

## 45 Teams Sign Up For Park District Baseball Program

Forty-five teams have signed to compete in the Granite City park district's summer boys' baseball leagues, and facilities presently available will enable thirty seven more squads to be handled this summer. Harold Brown, park district recreation director, said today.

The park district formed leagues for 47 teams in four age divisions last season but, with adjustment of scheduling, will be able to accommodate as many as 52 this year, Brown added.

Nine teams are registered in the Atom division (ages 7-9), and three additional teams can be handled. The Midgett division (11-13) lacks only one squad for a full complement of 12 teams.

Two teams can be added in the Buntan division (9-11), which presently has 15 teams registered and is likely to be the largest division. The Juvenile loop has signed 10 teams and only one more will be added before schedules in the league for 15-15-year-olds is drawn up.

The recreation director said no interest has been shown in forming a baseball league in the Junior division (15-17), and that plans for the division have been dropped.

Team sponsors have until April 17 to submit entry fees for their squads.

Two weeks remain before the deadline for entering the Granite City park district's men's singles handicap bowling tournament, and Harold Brown, park recreation director, said today that just 15 entries for the tournament have been received to date.

Brown added that at least 170 entries are needed for the tournament to "break even". The league, to take place on the Big Top Bowl and Bowland 14-16, 21-23 and 28-30. Entry blanks may be obtained at the participating bowling houses and at Frank's Card Shop. They should be completed and mailed to Brown at 1314 Niedringhaus avenue on or before noon Wednesday, April 5.

**Pet Ducks Missing From Home Of Michael Tondas**  
Two pet Mallard ducks, which disappeared Monday from the home of Michael Tondas, 1801 Pontoon road, are still missing, it was reported today.

Mrs. Tondas said the ducks, one female and one male, were mates and are tame. Although each duck is of the wild species, the drake has been a pet for more than four years and the female for about a year.

Inquiries were made at neighborhood schools and homes, but no one had apparently seen the fowls. Although wild ducks rarely become pets, their wings have not been clipped.

## Ashby Resigns As Assistant MHS Cage Coach; Change At Dunbar

The Madison school board accepted the resignation of Lee Ashby as assistant basketball coach at Madison senior high school and relieved another Adams' Dunbar school coach. Ashby's resignation was accepted during a Tuesday night board of education meeting.

Ashby, whose junior varsity and sophomore teams compiled a phenomenal 106 wins against only 17 losses during the five years he was Dunbar coach, said at MHS, will continue to teach high school business administration classes.

In asking to be relieved of his coaching duties after a season which saw his teams win 22 games and lose but one, Ashby said that he had no serious desire to advance in the coaching field, would like to devote more of his time to duties in the classroom and that his children have reached the age where they need more of his attention.

Adams' Dunbar school coach went undefeated this season and won the Mad-Chair conference title, only to be forced to forfeit his entire schedule as a result of the use of over-age players. He was asked to relinquish the coaching position by Dunbar Principal Wade James, after James had reported the use of 15-year-old players to Mad-Chair officials.

Adams will be retained as an elementary teacher at Dunbar. He said in a letter that he "took full responsibility" for use of 15-year-olds and would offer "no excuses."

## GC Judo Club's Third Annual Meet To Be Held Saturday At YMCA Gym

100 Contestants Expected

Contestants from Detroit, Chicago, Drury College in Springfield, Mo., Kansas City and Gary, Ind., are expected to be on hand Saturday at 7:30 p.m. when the Granite City Judo club stages its third annual meet at the YMCA here.

This year's meet, which is sanctioned by the AAU, is expected to attract some 100 "judoka" from the various cities which have expressed interest, and that number will include some 40 representatives to three divisions of male contestants. They include the junior-junior division (12-17 years of age), junior division (18-16) and senior division (17 and over).

The senior division will be subdivided into classes including white belt, first, second and third-degree brown belt, and black belt. First and second-place trophies will be awarded in all categories, with the top finishers eligible to compete for berths on the United States Olympic team.

Judo, an amateur level, has been recognized officially by the directors of the Olympic Games, and will be included among individual competitive sports for the first time in 1964.

The boys' and men's competition will be held in the YMCA gymnasium, where special bleachers are being erected to accommodate spectators. Last year's matches attracted some 500 spectators.

Admission to the sessions is \$1, with funds turned back into the Granite City Judo club treasury and used to purchase judo attire and improve facilities. The group is a non-profit organization.

Members of the I-C league will meet at 8 p.m. Saturday at McAttee Glass Co., 3801 St. Clair avenue, East St. Louis, to play a league baseball for the coming season.

\* Last year's levee district tax rate.

The rates are combined here in the way that they affect the majority of people in the local areas. For persons in different governmental groupings, the rates will vary accordingly.

Long lake fire district residents should add .10 (an increase of .016 from last year) to the other rates in Nameoki township to determine their total rate. Those in the Miracle Manor-Bellmore Place street lighting district should add .10 (same as last year).

Nameoki township residents in the Madison school district should substitute that rate for the Granite City school district rate. Those in the city of Madison should add the city tax rate.

Venice township residents in the Granite City school district should use that district's rate. In all cases, the exact rate can be found by adding the rates of the governmental areas in which each taxpayer resides.

The procedure outlined enables property owners to determine their new combined tax rate immediately. The figures will be supplied to them officially with their tax bills this year.

#### Long Lake Amvets Set Egg Hunt Easter Sunday

Long Lake Amvets Post 187 Tuesday night made final plans for the Easter egg hunt to be held at 2 p.m. Easter Sunday April 2, according to Steve Hordecky, chairman of the event.

Stuffed Easter rabbits will be awarded to children in three groups up to 12 years of age who find marked eggs, he said. The groups are from age one to four; four to eight and eight to 12. The hunt will take place at the Long Lake fire department grounds at Pontoon Beach.

area along Wabash and Clark avenues are without sanitary sewers and have been developed in recent months with septic tanks, and Alderman Paul Rutledge said North Granite should not be overlooked.

A drainage problem in the 2100 block of Clark avenue was brought out by Alderman Frank Vesce, who asked that funds be included in next year's budget to construct a line.

The piecemeal projects were criticized by Alderman Samuel Whitmer, who said they would increase the city's budget.

"The only way the city budget can go is up, if we take on all these projects, and here we've been trying to cut the budget. Many people are paying for or have paid for sewers, and now they'll be paying for other people's. I'm not in favor of increasing the city budget."

### GC Council Studying Fire Prevention Code

A proposed fire prevention code for Granite City, placed on first reading last Oct. 17, was discussed during Monday night's council session, and is to be re-submitted in six to eight weeks for adoption.

The code, set forth in a 210-page booklet prepared by the National Board of Fire Underwriters, calls for establishment of a bureau of fire protection.

City Atty. William Beatty said he had about eight copies of the code which are to be distributed among the aldermen to study for two or three weeks before passing the booklets on to other aid-erns.

Beatty told the council the code had not been resubmitted for passage because of the lack of copies. "Now that we have them, I suggest each alderman read it through. I've found several objectionable things and you might find others you would want to eliminate."

Alderman Walter Nomm said he was certain a similar code had been rejected in Alton. "It had a snapper clause, giving the city authority to enter anyone's home at anytime to make inspections. We don't want that in Granite City," Nomm said.

Beatty told council members that copies of the code had been

#### List Polls, Judges For Madison School Vote

Judges to serve in the Madison school district school board election on Saturday, April 8, were appointed Tuesday night during a Madison school board meeting.

Serving as judges in the Precinct One polling place at Harris school will be Mrs. Lenna Williams, Mrs. Dolores Brunick and Miss Margaret Clark. Election judges in Precinct Two, at Blair school, will be Mrs. Ada Walton, Mrs. Jewell Barnes and a third judge to be named later.

The school board approved judges' pay for election service of \$15 each, and also will allow the use of Madison high school as a polling place for the Name-of-towship school trustee election, also on April 8.

For purposes of the school board election, Precinct One includes all territory in the school district lying east of the Terminal Railroad Association tracks and the other precinct all territory lying west of the same tracks.

The polls will be open from noon until 7 p.m. Unopposed candidates seeking re-election are School Board President John Bellico, Secretary Henry Baucom and Chester McKenney, all for three year terms; and Frank Derner, a one-year unexpired term.

#### Industry Management Instructors Qualified

Five employees of Granite City and Madison heavy industries are among a group of instructors in Southern Illinois University's industrial management program who will account for 213 years of on-the-job industrial experience between them, according to Emory R. Castevens, supervisor of SIU's industrial and technical programs, based at the Southwestern campus.

The local instructors are Robert J. Schaefer, rolling mill department superintendent at Dow Metal Products Co.; Frank O. Cloak, assistant to the vice-president of operations at Granite City Steel Co.; Frank Martini, extrusion department general foreman at Dow Metal Products Co.; Frank Mansfield, assistant plant manager at Dow Metal Products Co.

These instructors, together with others in the SIU program, conduct classes in Granite City, East St. Louis and Alton where the practical approaches to the problems of management are taught.

Most class students are present or future foremen or supervisors in area industrial plants.

#### Trades Council Not Endorsing Labor Paper

The Tri-City Central Trades and Labor Council, AFL-CIO, is not endorsing any labor newspaper, it was announced today by Edwin Reiske, president of the council, who said he has been receiving a number of inquiries from local businessmen who have been solicited for advertisements. Reiske said the Trades and Labor Council does not recognize any labor paper in the immediate area and does not condone the "high pressure tactics used in solicitations." He added that he plans to inform the Association of Retailers and Civic Association of the council's stand.

#### Services Held For Delbert Dalton

Funeral services for Delbert Dalton, 59, of 610 Washington avenue, Venice, were held at 1:30 p.m. today at a Madison funeral home. Burial was at St. John's Cemetery.

#### GC Council Accepts Low Bids For Autos

A low bid of \$6100, submitted by Ellidge Motor Co. to supply five 1961 Plymouth sedans with heavy duty equipment for the Granite City police department, was accepted Monday night by the council.

Prior to acceptance of the recommendation of the Police Committee, council members discussed the possibility of buying more expensive autos for higher trade-ins at the end of the year.

However, Alderman Donald Partney urged acceptance of the low bid. "Remember," he said, "no one wants to buy an old police car."

Alderman Steve Basarich suggested that if the council did not want to take low bids for police cars a standard should be set for the type of auto to be purchased, "such as Cadillacs."

Other bidders were \$6170 from

Farrington Motors for Dodge Darts with heavy duty equipment and \$6370 from Mathews Chevrolet Co. for Chevrolet with heavy equipment. The lowest bid, submitted by Ellidge Motors for Studebaker Larks, was not considered because of the size of the cars.

#### Engineer Depot Needs Engineering Draftsmen

Rate of pay for the positions was listed at \$4345 to \$5335 per year. Information as to experience requirements may be obtained by contacting the civilian personnel office of the depot, GLT-2300, Station 387.

#### GC Naval Reservist To Take Part In Training

## Another Gasoline Price War In Progress Here

Most major brand and cut rate service stations have cut back per gallon gasoline prices three cents in the second "price war" this year. The cut started at noon Tuesday.

Fred Fahner, who operates a service station and is a representative of the Allied Petroleum Dealers Association, said per gallon prices for regular grades are down to 29.9 cents and premium to 34.9 cents.

At cut rate stations, regular is selling for 26.9 and premium for 31.9 cents, a spokesman said. The cut began in St. Louis a week ago and per gallon prices in St. Louis county have dipped to 24.9 for regular and 29.9 for premium.

## GCCHS Additions Cost \$609,000; \$5000 Local Taxes

Two Granite City high school additions—containing a total of 20 classrooms and three vocational shops—have been located and completed at an expenditure of only \$5087 in local property taxes.

This has become known with forwarding of a final financial statement by the district to the Federal Housing and Home Finance Agency. Costs totaled \$609,014, of which \$601,128 is from a federal grant.

The \$8486 difference represents the \$3087 district contribution and \$3398 interest earned from investing portions of the grant in U. S. Treasury bills. The district originally had estimated \$17,000 from the building fund. Supt. Harold M. Kaiser noted.

The \$3087 transfer made this month increases to \$549,500 the funds received. A last installment of \$60,114 is to be sent by the federal government as soon as the financial statement is approved.

Payments made thus far amount to \$338,882 and \$69,931 is still owed.

**Breakdown Of Cost** A breakdown of the \$609,014 total cost of the two additions shows \$331,252 for general construction, \$32,537 for electrical work, \$76,001 heating and ventilating, \$34,199 plumbing, \$34,015 architectural and engineering services, \$21,262 equipment and \$103 legal and administrative costs.

Base and adjusted contracts included the following: S. M. Wilson and Co., general construction, \$386,366 base and \$391,220

after adjustments; Rite Electric Co., electrical, \$31,710 and \$52,337; Kremer Hicks Co., heating and ventilating, \$79,631 and \$76,901; and Marksky Plumbing and Heating Co., plumbing, \$31,787 and \$34,199.

Henry Gabriel and Sylvester Dulgeroff, architects, were paid \$33,863. Other architectural and engineering costs totaled \$150 (\$120 engineering and \$30 blueprints); the \$103 legal and administrative costs consisted of \$81 for title abstracts and \$22 for bid advertisements; and the \$21,262 paid for equipment consisted of \$6697 in purchases from Bencherath, Inc., \$4176 Blackwell Wielder's \$3510 Capital Fixtures, \$2162 Brown Machinery Co., \$1698 Lincoln Electric Co., \$1029 Mill Supply Co., \$745 Air Reduction Sales Co., \$476 DeVilbiss Co., \$464 McDonnell Machinery Co., \$258 Erod-head Garrett Co., \$146 Sears, Roebuck and \$145 Atlas Sales Co.

## Attend Area Public Library Institute

Inadequate operating funds is a major problem for many public libraries in southern Illinois. Miss Lila Stonemetz, Fairfield librarian, told a group of area librarians and trustees at Southern Illinois University Monday.

Among the 60 persons attending the session of the Public Library Institute were Librarian Mrs. Mary Gene Knufink, Mrs. A. H. Rode and Mrs. Sarah F. Schroeder of Granite City.

The history of most public libraries is one of continuing struggles by women's organizations in the community to establish an improve the library. Miss Stonemetz said. A major problem is obtaining sufficient support through taxes or other means to maintain and adequate and timely collection of books and reference materials and to staff the library properly, she added.

Those attending the conference also heard how public libraries can serve the blind of a community, a report on proposed library legislation and a discussion of library financing and budgets.

A contract with Illinois Power Co. for installation of additional outside lighting at the Madison high school building was approved. The rental contract runs for a three-year period, with monthly payments totaling \$24. Included in the cost are two new light poles and fixtures, plus additional fixtures on a pole already in place.

Brown reported receipts of bids on educational, athletic, library and science supplies and equipment which will be needed during the 1961-62 school year. Other items are being submitted to bid calls as the need for them is determined, he said. The board will await the arrival of all bids on all items before awarding contracts.

The board voted to establish a counseling and guidance service within the district next year, finances permitting.

lation of 38 parking meters, opening to parking the south side of Niedringhaus avenue between Madison avenue and Iowa street.

Meyer said the new annex to the hospital has increased parking problems, and the proposal for installation of additional two-hour meters was being presented to the council for consideration. He suggested action might be taken next week.

The alderman said about 20 meters could be placed along 21st street between Madison avenue and Iowa street, 11 on Madison avenue in front of the hospital, 11 on Niedringhaus avenue alongside the hospital and the others along Memorial Park.

When questioned about possible traffic congestion along Niedringhaus avenue, Meyer said parking could be prohibited during rush hours.

**Street Sidewalk Blocked**  
Permission was given S. Wilson & Co. to block a sidewalk and a five-foot section of 20th street at Granite City Steel Co. in the vicinity of Lee avenue where a building is being razed and a new structure for a continuous annealing line is to be erected.

Alderman Whitmer, chairman of the Street and Alley committee, said it might be necessary in the near future to block off 20th street entirely east of Madison avenue because of sewer cleaning and repairs and to resurfacing and widening project to be carried out by the state.

"I don't know what the state will do with the truck traffic," Whitmer said. "Well, probably have to route it by the hospital."

**Proposal By Cohen**  
Referred to the Street and Alley committee for consideration was a request by Louis Cohen of Cohen's Market, West side of Madison and Illinois avenue, to install a sidewalk on the north side of West 23rd street and along the street at his own expense to provide ample parking.

Cohen, who will present for the meeting, said there is no sidewalk at present and that he would carry out the project at the time he paves a parking lot for the store. He said the obstruction.

"I'm sure there will be no present curb presents a traffic problem if it is removed," he said. "There is ample parking on the other side of the street," Cohen told the council members.

Furthermore, many people can be persuaded to oppose something they do not understand, and once they have taken that attitude, they seldom change.

"From coast to coast, numerous strife-torn communities—ceded in defeating fluoridation—a word that was not even in their vocabulary a generation ago—can attest to the effectiveness of the anti-fluoridation campaign."

**"No" Votes Winning 9-1**  
"The referendum is a particularly effective framework in which to oppose fluoridation. Irresponsible statements, misleading and horrifying, have succeeded in defeating fluoridation by referendum in Seattle, San Diego, Birmingham, Columbus, Ohio, and well over 230 other communities.

By referendum, twice as many communities have rejected fluoridation than have adopted it. "Several factors contribute to the problem. Tooth decay is not a dramatic infectious, crippling or killing disease. Most people have learned to live with their dental problems, and do not regard them as sufficiently serious to require treatment. The scientific arguments for fluoridation are not simple. They cannot compare with the drama of the wonder drugs; the benefits to be derived cannot be observed for over a decade, and even then are not palpably obvious."

Not only has the U. S. Public Health Service endorsed fluoridation of water supplies, but also the following organizations are on record as favoring fluoridation:

APL-CIO, American Legion, National Congress of PTAs, American Medical Association, American Dental Association, National Research Council, American Public Health Association, American Academy of Pediatrics, American Association for the Advancement of Science, American Cancer Society, American College of Dentists, American Hospital Association, American Nurses Association, American Pharmaceutical Association, American Public Welfare Association, American Society of Dentistry for Children, American Water Works Association, College of American Pathologists, Commission on Chronic Illness, Conference of State Sanitary Engineers, Industrial Medical Association, Inter-American Committee on Health, National Institute of Municipal Law Officers, State and Territorial Health Officers Association, U. Junior Chamber of Commerce and Friends of Departments of Preventive Medicine of 68 accredited medical colleges.

Although this is only a partial list, it indicates the depth of support by recognized health, medical and dental experts who have been urged to support studies of fluoridation.

**Advice By Health Committee**  
Aside from federal government's support of fluoridation, the closest thing to official advice for each citizen is contained in the fluoridation statement of the Inter-Association Committee on Health.

This 11-year-old committee represents six of the major national health and welfare groups in the United States — the American Dental Association, American Hospital Association, American Medical Association, American Nurses Association, American Pharmaceutical Association and the American Public Welfare Association.

The IACH has gone on record as urging the fluoridation of the fluoride-deficient public water supply of this country, rapidly as plans can be approved by the local medical, dental and health departments.

# No Levee District Pollution Ballot In April Voting

A pollution abatement referendum proposed by the East Side Levee and Sanitary District will not take place April 4, due to rulings by county clerks and the East St. Louis election board. Lack of time to include it among the ballots was cited.

A levee spokesman confirmed Tuesday that plans for the advisory vote next month have been discarded. No special election has been considered, and any immediate action by the Illinois Sanitary Water Board is not expected.

The pollution abatement vote was proposed at a meeting called by Dan E. Costello of the levee board Feb. 2, and the board adopted a resolution Feb. 8 calling the referendum.

However, the request was rejected by Miss Eulalia Holt, Madison county clerk, after the ballot preparation deadline, which specifies the minimum number of days that such action must be taken in an advisory election.

Similar rulings have been received from other election officials, the levee spokesman related. Absentee ballots prepared by the Illinois Sanitary Water Board representatives as a way of ending a "stalemate" on the matter.

The advisory vote was suggested by the Illinois Sanitary Water Board representatives as a way of ending a "stalemate" on the matter. The levee officials want the levee district to handle abatement.

**Student PE Teacher Is Assigned Here**  
Granite City is one of 70 Illinois communities in which the University of Illinois student teachers have been assigned to selected training centers for a "professional" semester March 27 to May 12. Prof. F. James Rybar, in charge of student teaching, College of Education at the U. of I., said today.

Assigned here will be Miss to enter the women's physical education field. Her duties will be at the Granite City senior high school. Her Prather junior high school. Local cooperating teachers will be Mrs. Helen Bierkman and Miss Barbara Kerch.

**Rotramel Joins Accounting Firm**  
Denny D. Rotramel, 3132 Jill avenue, has joined the state university of Illinois. He is a graduate of Frankfort community high school, Frankfort, Ill., and Southern Illinois University, has a bachelor of science degree in accounting and is a certified public accountant.

His previous experience is as a cost accountant, assistant controller, and auditor for a national certified public accountant organization. Rotramel is married and has two children.

which must be carried out by some public body, and he expressed the hope that the Quad-Cities would take a similar stand, which he said would reduce the per capita cost.

Fields said the election would have a better chance of carrying if cost details were known, but levee and state officials said construction costs and service charges were indefinite. The exact plans would have been outlined in a later revenue bond issue resolution not requiring a vote by the public.

**Stand Of Local Cities**  
Madison officials also are on record as asking the levee district to proceed, but Mayor Stephen Myers said in February he doubted that the public vote would be favorable, because people already are hesitant.

He described the election plan as the "best way to learn public reaction on pollution abatement; there is no doubt that something has to be done about it."

Granite City has been authorized by the federal government to use part of a drainage study grant to conduct a study on feasibility of the city proceeding with abatement plans.

Venice officials have applied for a federal grant to make a pollution abatement study.

# GC Democratic Club Hears, Endorses Rich

The Granite City Democratic Club met at the YMCA last night, heard Citizens' League Efficient Administration Party candidate for mayor, Ernest "Pat" Rich speak, then endorsed Rich and a slate of candidates running for city offices under the same political banner.

Rich told the gathering that "being mayor of Granite City is a full time job," that the city needs planned growth and progress, positive and effective administration in the city hall, improvement of fire protection, maintenance of the city's water system, drainage and sanitation, more thorough traffic control, and that he would favor the establishment of special mayor's advisory boards in areas where the city cannot afford full time professional help.

Endorsed by the club together with Rich were Everett "Doc" Haven, candidate for city clerk; Robert McCormick, candidate for treasurer; Ole Beasley, candidate for police magistrate; Von Dee Cress, seeking re-election as township assessor; Nelson Johnson, assessor; and Joseph Cavar, candidate for township supervisor; C. A. Miller, candidate for sixth ward alderman; and two candidates for first ward alderman, Simon Blada and Joseph Cavar.

## Leading The Upswing.

# RAMBLER RECORD HIGH!

Rambler News is good! March Sales are running at an all-time record rate. That's right! More people bought Ramblers in the first third of March than in any similar period in Rambler history!

Yes—Rambler leads the economic upswing as more car buyers discover that Rambler Excellence gives a bonus on every car dollar they invest.

### Now Is A Good Time To Buy!

Rambler means business! Right now, Rambler dealers are out after even more sales with the kind of fair-and-square liberal deals that car buyers can't afford to pass by. Used car prices have firmed. That means your present car is worth more in trade now than on a new Rambler.

### Why Is Rambler Breaking Sales Records?

Compact cars are capturing an ever-growing share of the new car market. Why does Rambler continue to hit new sales heights? Because Rambler is better than the big cars and best of the compacts. Here are the reasons:

**RAMBLER HAS** top resale value proved by official Used Car Guides.

### Ask Your Neighbor About His Rambler

He'll tell you why Rambler dealers sell twice as many compact cars per dealer as most other dealer groups. And your Rambler dealer can give you a better deal on the best of the compacts. Drive Rambler—a world record of compact car excellence!

## Climate For Business Firms At Issue In State Tax Proposals

A proposed tenfold increase in the Illinois corporate franchise tax, which would make it the highest in the nation, raises the question of whether corporations are paying their fair share of the state's tax burden.

In seeking the answer, consideration must be given to corporations' total tax load, which includes personal property, utility, insurance and other taxes. It is a fact that they pay a larger share of taxes in Illinois than in such states as New York and Pennsylvania, even though these same two states have been cited as proving just the contrary. Part of the reason for the misunderstanding is that firms' personal property is taxed in this state but not in the other two.

Corporations pay 67% of all personal property taxes in Illinois. Whether this is "fair"—too much or too little—depends upon one's point of view, but in the public interest it should be pointed out that businesses' proportion of all taxes is greater in only a few states, such as Michigan, which has been notable in recent years for its loss of industry, rising unemployment and state government financial woes.

Boosting the franchise tax, already higher than in 20 states, would appear somewhat unwise, since the effect of applying it has no connection with a firm's worth or earnings. Other Illinois taxing proposals aimed at businesses include imposing a tax on corporate net income or singling out a segment or type of business activity as a source of additional state revenue.

Although Gov. Kerner and House Speaker Powell recently have revised downward their estimates of Illinois' financial needs, it is likely that some taxes will be added and some will be borne by corporations. But whatever action is taken should not be used as its basis the erroneous impression that low taxes are being imposed now, compared to other states.

Nor should there be any confusion over the fact that higher business taxes affect all Illinoisans, through their impact on the state's attractiveness for industrial loadings and expansions, and the related climate for encouraging or discouraging employment and production.

## Bountiful Crop Of Campaign Signs Amid Spring Blossoms

More so than in previous elections, the current Granite City campaign is turning local terrain into a kaleidoscope of color containing large quantities of political slogans and propaganda. The arrival of spring has brought with it green lawns, budding flowers and neatly lettered signs recounting candidates' names, promises and accomplishments.

City records inform us that there are 59 candidates seeking 16 offices in the city, township and we will take their word for that. There really aren't 250 candidates; it only seems that way.

Along with the many signs newly-planted amid the forsythia, there are mobile announcements on cars and trucks, and we can see one ad-

vantage in that. On the evening of April 4, when the results become known, the losses and their campaign commercials can vanish from the local scene much more rapidly than before.

## Local School Products Helped Earn Area's Second State Basketball Title

It hardly seems 21 years ago, but it was in 1940 that Granite City high school captured the state basketball championship. Now, all-conquering Collinsville has brought the Southwestern Illinois Conference its second state title in the tournament's 54-year history.

Full credit is due the Collinsville school system and citizenry, for the entire community has been basketball minded for years. Yet we cannot resist noting that two of the key varsity players, Fred Riddle and Bob Simpson, are products of local schools, having transferred to Collinsville from Madison high school. Before the transfer, in 1959, Madison's Trojans came within a game of a fourth place or better finish at Champaign.

We hope we are pardoned also for noting that two of Collinsville's nine post-season victories—the 84-75 game with Madison and 55-45 contest with Granite City—proved closer and more interesting than any of the final three tests against teams from the north.

## Boys Outdone By Girls In Motoring Safety Record

"The performance of male drivers between the ages of 16 and 25 stinks."

This is the conclusion of an insurance executive, speaking on behalf of the Illinois casualty insurance industry, who notes that "girls in this age group have it all over them on driving records. While accidents and sudden death force insurance rates for young male drivers toward the wild side, younger, girls of the same age have quietly compiled a safety rate equal to adult drivers."

Although boy teenage drivers have the quick reflexes and skills to be the best drivers in the world, they are the worst and their safety record is still dropping. Paul Powell said in an address this month. He added that his indictment of youthful males was directed at them as "a statistical class" rather than as individuals, since many are careful, responsible and level-headed drivers.

The record cited as appalling shows that drivers under 25 were in 4,750,000 accidents in the last complete year of record and were at the wheel in 12,400 crashes in which one or more persons died. Accounting for 18% of the nation's licensed drivers, they were involved in 27% of all accidents and 28% of those in which a death occurred. Costing insurance firms \$127 for every \$100 in premiums, they are forcing liability insurance rates upward.

"A boy isn't a man until he can handle cars," Powell says, "and boys aren't handling them properly although they have the know-how to do so." With 8400 young people dying in traffic mishaps yearly, perhaps safety competition might be an answer. Surely boys will not want to be outdone by girls in the real test of driving performance—safe arrival at the destination.

683 times "around the world," they pounded the pavements and proved that concrete outperforms asphalt these ways...

NATIONAL ROAD TEST GIVES THE EVIDENCE!

Sponsored by the American Association of State Highway Officials (AASHO), the 27 million dollar National Road Test was set up to establish basic facts of design and construction for concrete and asphalt pavements.

Test pavements were built on the same soil, to carry the same vehicle loads to designs currently used in various states. 99 loaded trucks—pickups to semi-trailers—pounded them 19 hours a day for 2 years. Millions of scientific measurements were made.

The test has demonstrated concrete's superiority for streets, roads and interstate highways!

1 Concrete is more durable! A count after 2-year test showed concrete outlasted asphalt 3 to 1! Concrete gives you more for your tax money.

2 Concrete rides easier! In rideability measurements, concrete won decisively over asphalt. Only concrete can give you lasting driving comfort.

Your state helped finance this test to bring you better roads, full value from tax dollars.

### ASK CANDIDATE TO OUTLINE PROPOSAL

Dear Editor:

The current campaign for Mayor of Granite City is now in its last, final and decisive stages. Before it comes to a close April 4th, I would like to direct a question to one of the candidates, and the public at large. For some weeks now I have been reading paid ads, appearing in this newspaper, condemning and criticizing Mayor Davis and his administration of our city. Yet, though he is asking the people of this town to give him the right to administer their city government, I have not heard one corrective proposal from this candidate. Neither has he not-

any member of his entourage which incidentally stretches from 17th Street into Madison. Have I heard what will be done to make our City a better place to live if he is elected Mayor?

Will he guarantee that our City will continue to have a low crime rate, that it will remain a clean, orderly, progressive town, that we, the citizens of Granite City, can continue to look forward to industrial growth, that our municipal books will remain in the black, and finally that this is a town we can live in and be proud of?

These are the fruits of a 12 year labor of love on the part of a hard working, dedicated man. Pat Rich, can you give us as much?

### READER SAYS DON'T JUMP INTO FLUORIDATION

To the Forum:

I enjoy reading every edition of the press record but I will say I am getting very tired of reading what the Doctor's and Dentists of Granite City think of Fluoridation. There are certainly a lot of other tax payers in Granite City but the truth is most of them aren't considered important enough to get their views put on the front page.

Recently one of the larger cities of the East just banished Fluoridation as they could find no proof that it was really beneficial to teeth. It seems if it was so beneficial to teeth why doesn't the dentist or doctors think of some tonic that can be given to people that so desire it. A lot of water is used in cooking our foods so not only will the water be fluoridated but also our foods. It looks like just because a very few enjoining places are for it we are supposed to jump in the river too. Am I right?

AN INTERESTED TAXPAYER  
I don't wish my name printed. P.S. I guess this letter won't be printed on account of the election being so near but if people are like I am they won't vote in favor of anything unless they have a lot more facts on it. Thank You as I didn't mean to waste your time.

## 9 Quad-City Students Win State College Scholarships

Nine Quad-Cityans were among the 2870 Illinois students awarded yesterday as winners of Illinois State Scholarships. Commission college scholarships. Of the 2870 named, 1352 will receive monetary awards and 1518 honorary awards.

Local winners for the 1961-62 school year are Patricia Baryske, 3001 Pershing avenue; Linda Chavision, 2531 Iowa street; Casey Fredericks, No. 1 Miami Court; Gary F. Grammer, 4712 Vincent avenue; Karen A. Hotdesky, 2917 Wayne avenue; Nancy Marie Jones, 1724 Bremen avenue; Andrew J. Purdes, 1830 Sixth street; Madison; John Keith Veizer, 1817 Pontoon road; and Gloria L. Zlatz, 2655 Benton street.

Dr. Lloyd S. Michael, chairman of the commission, said award recipients in the fourth annual competition were selected from semesters who qualified from the Illinois State College Testing Program examination given last Nov. 5. "Each student who qualifies as an Illinois state scholar must rank in the upper half of his graduation class in his senior year, be a resident of good moral character, achieve a superior score in the ACT examination, and enroll in an approved public or private college of his choice in Illinois," Michael said.

\$500 Yearly Maximum

In explaining the awards system, Dr. Lyman J. Smith, executive director of the commission, said students who demonstrate financial need will receive stipends for full or partial payment of tuition and fees up to \$500 a year. Honorary awards provide recognition for outstanding scholastic achievement, as well as enabling students to request future awards.

Smith said a nine-member jury, specially chosen for experience, integrity and good judgment, assists the scholarship commission in evaluating financial need. They use a detailed system of financial analysis basically the same as the well-established formula of the College Scholarship Service but adapted to requirements of Illinois' program. "It is also worth noting that the scholarship law insures geographical distribution of awards by providing for at least two scholarships within each Assembly District," Smith said.

Announcement of this year's 1352 monetary award winners brings to 3418 the total number of Illinois state scholars who will receive stipends in September. "Since some of our winners will withdraw to attend out-of-state schools or accept other scholarships, this permits us to make a second-round announcement of winners late in May," Smith said.

The Illinois State Scholarship Commission was established by the General Assembly in 1957 with the enactment of House Bill 35. The commission's members include: chairman, Dr. Lloyd S. Michael of Evanston; secretary, Dr. E. C. Bess of Springfield; vice-chairman, Mon. signor W. E. McManus of Chicago; R. E. Bess of West Chicago; Mrs. Faith J. Killings of Chicago; Mrs. William Petty of Anthon; William L. Randall of Chicago; and State Supt. George T. Wilkins of Springfield.

Gov. Otto Kerner this week praised the scholarship program

and called it a positive step to insure the continual presence of readers vital to a well-informed society and necessary for any nation that hopes to remain strong and free.

"We are proud of the academic achievements of these students has demonstrated in gaining a superior score in an exacting competitive examination," Kerner said. "Their high attainment brings honor to their community, school and home, reflecting the excellence of instruction, the wealth of guidance and the depth of encouragement given by their parents and teachers."

### St. John Lutheran Will Confirm Class

Seven young people will be confirmed Palm Sunday at St. John Lutheran Church, St. Clair and Dale avenues. They are Bobbie Jo Braden, Beverly Dunnagan, Robert Edward Brokaw Jr., George Steven Dombek, Donna Mitchell, Larry Mitchell and Barbara Schmitz.

The group was examined in their knowledge of Christian doctrine at Sunday's worship service by the pastor Rev. Samuel Boda. His sermonette was based on Pilate's question, "What is Truth?"

The leader of the senior choir of the church will sing the processional, "Rejoice Ye Pure of Heart" by J. S. Bach, led by Mrs. Rudy Dik, with Mrs. J. C. Cell at the organ.

During the service all communicant members will be reconfirmed in their faith and thus the worship service will take on the nature of a "Loyalty" Sunday.

### Miss Judy Brown Named Secretary

Miss Judy Brown of 1707 Fourth street, Madison, was elected secretary of Bowyer Hall, one of the three women's residence halls on the campus of Southern Illinois University, Carbondale. New officers will begin their duties at the start of the spring term, March 27.

## Warrior Baseballers Travel South, Open Season With 2 Games Saturday

With this part of the state still buzzing over the recently completed basketball season and about the only sign of spring so far the date on the calendar baseball moves up to occupy a portion of the spotlight at high schools in Illinois.

Twenty-seven players will make the trip to Southern Illinois Saturday as Granite City high school's varsity squad inaugurates the 1930 season with a pair of on-the-road games against non-conference opponents.

The Warriors are scheduled against Carbondale Community high school there at 12:30 p.m. Saturday, and will climb back aboard their bus as soon as that game is completed, stopping off long enough on the return trip to engage Murphysboro in a contest set for about 3 p.m.

Although the Warriors have been unable to get in as much pre-season outdoor work as Coach Joe Fedora would like, Fedora stressed that the lineup is well established for opening day.

He plans to start a left-handed Joe Holder, on the mound against Carbondale, let him work three or four innings and then finish up with Grant Takemian.

Later Saturday, Larry Diak is the scheduled starting pitcher in Murphysboro, with Larry Corey set to work the last couple of innings.

Fedora's plan is to get a good look at all of his personnel—including pitchers—before the GCHS begins conference play here against Wood River on April 4, which happens to be the Warriors' first home date.

**High On Sophomores**  
"We've got an especially fine group of sophomores—seven of eight of them—who will all get a chance," Fedora said.

The traveling squad will be cut later in the season, he added.

In the first game of the season, Granite City's infield probably will include Corey at first base, Diak at second, Dave Sparks at third and Bob Hofke at shortstop.

Tony Manne, Ken Cook and Steve Schardan most likely will make up the outfield, reading from left to right. Pat Schuman is scheduled to start behind the plate.

**Dual-Position Players**  
"Our big problem this year is going to be changes on the infield," Fedora continued, pointing out that he has two pitchers who are expected to take regular mound turns, listed in the infield for the opener.

Against Murphysboro, Sparks will be moved over to second base to replace the scheduled hurler, Diak. Roger Hoson will move into Sparks' vacated position at third.

Cook is slated to do the catching in Saturday's second game, and Larry Melton will move to centerfield to fill the gap there. Fedora stressed that the lineup is strictly experimental. "We hope to be pretty well set by the time the tournaments roll around," he added.

**Hope For Warm Weather**  
The GCHS coaching staff, which includes Assistant Coach Don "Duke" Brumleve, is hoping to encounter some warmer weather farther south.

The squad has been able to put in only seven or eight afternoons on the playing field, confining the remainder of its practice to the GCHS gym, which happens to be just large enough to lay out the "infield."

The team bus will leave Granite City at 8:30 a.m. Saturday, and whether or not the games can be played will depend entirely upon the weatherman.

**Prather Schedules 14 Baseball Games; Opener Is April 6**

Addition of two playing dates has completed the regular season schedule for Granite City's baseball team for this spring, Coach Conrad "Babe" Champion said this week.

The Chiefs, who will field their first diamond squad this year, have a total of 14 games with eight different opponents, and will kick off the season against Coolidge JHS on April 6.

Champion said about three full teams have been retained from the group of 35 boys who tried out for the team, which has been holding indoor practice since February. Included are 7th, 8th and 9th graders from the new set Junior high school in Granite City.

Prather will play all six of its home games on the Wilson park diamonds. The schedule:

April 6—Coolidge, There, 3:45  
April 7—Roxana, Here, 4  
April 10—Edwardsville, Here, 4  
April 12—Collinsville, There, 4

With the Alton Falstaffs already considered shoo-ins to win the title, attention in the South Illinois Bowling Proprietors' Classic Traveling League turns to the three remaining post-season playoff positions.

Five teams are still in the running for those spots, and four of them will be battling head-to-head Saturday at 7 p.m. when the league appears at the O'Fallon Sports Bowl.

While the Falstaffs are shooting Pepsi-Cola of East Alton, key matches involve second-place Granite City Bowland Schiltz, which completed at the ABC tourney in Detroit last weekend, and Loman's Bowlers Shop of East St. Louis; third-place Collinsville Revere Room, paired with Rusty's of Edwardsville; and Ripley Bowling Pins of O'Fallon, with Black Label Beer of Belleville.

## Eagles' Youth Program To Enter Its Second Year

The Eagles Aerie 1126 youth guidance program will enter its second year when the boys' baseball season opens in Granite City in May. Again this year, the club will sponsor teams in the Atom, Bantam and Midget divisions.

More than 45 sons of Eagles' members will be listed on the rosters by opening day, and many others will have tried out for the teams.

Since the program began, more than 100 have participated in baseball, wrestling and boxing. Boxing and wrestling activities are carried conducted throughout the year at the Eagles home, and three football teams are entered in fall park district competition.

All equipment and uniforms are purchased by the Eagles, and a coach is provided for each team or activity, in an effort to stimulate wholesome participation.

## Nephew Of Madisonian Gets \$27,000 For Script

A nephew of a Granite City woman has written and sold a movie script for \$27,000 to a Yugoslav movie company at Zagreb.

Macedonian born Christopher Travella, 27, of Snowood Court Downview, a suburb of Toronto, Canada, has recently returned from Zagreb after signing contracts. He had been there since July while authenticity of his novel "The Tragedy of Our Age," was being established.

A playwright, author, lyricist and poet, Travella had come to live in Canada with his sister, Mrs. Sophia Kieles, in 1955. Mr. and Mrs. Christopher Solitoff, of Granite City, had given financial aid to their nephew in 1951, and had been instrumental in bringing Travella to Canada.

Mr. Solitoff, who has since passed away, was the brother of Travella's mother. The multi-talented Travella had been expelled from the University of Brno in Czechoslovakia in 1954 for being the son of a royalist and for writing a play about a small Macedonian village. After learning his younger brother had been murdered by guerrillas

## Soloist, Group Added To Festival Program

Special performances will be given by local youngsters at the annual Madison county Junior high school vocal music festival Saturday at Edwardsville junior high school, it was announced this week.

Toni Hunter, a Coolidge Junior high ninth grader, will participate as soprano soloist, and a costume dance will be given by the "Little Cossacks," a group of Russian descent who are members of the Nativity of the Virgin Mary Eastern Orthodox Church in Madison.

Sponsored by the Madison Orthodox club, which is associated with the church, the group consists of Paul, Joe, John and Margaret Greene, Jim and John Chumko and Jean and Marie Frymko. Accompanist is Alois Ghanbar.

Participants in all-day vocal music rehearsals and in a concert at 7:30 p.m. Saturday will include about 60 Coolidge students directed by Mrs. Pauline Frazier, 50 Prather Junior high pupils directed by Mrs. Isabel Schmidt and 20 Central Junior high students led by Miss Deloris Cavins.

Admission to the concert will be free for elementary pupils and 50 cents for Junior high and senior high students and for adults. The event is being sponsored by the Madison County Vocal Music Educators' Association.

The approximately 600 youngsters participating will be instructed during the day and directed that night by Charles H. Webb Jr., music instructor and manager of musical organizations at Indiana University.

## Creativity Found In Arts Boon To Field of Science

Creative thinking for the sciences, as well as in other matters, is tremendously stimulated by the arts, Eugene Alas, art director of the Granite City school system, told members of the Granite City Rotary Club at its weekly noon luncheon meeting held Tuesday at the YMCA.

"The field of arts," he continued, "includes not only such things as painting, etc., but also music and speech. All are creative and produce great individual satisfaction besides having substantial influence on the world's people."

To demonstrate the creativity of speech — one of the aspects of art — Alas introduced Miss Mary Blackburn and Wayne Hubbard, of the high school speech department, whose students presented a section of their prize-winning play, "Skin of Our Teeth," by Thornton Wilder.

Given with near-professional skill, the play brought vigorous applause from the Rotarians. It already has won district and section school competition, and soon will enter the state finals. Paintings, metalwork art, and other creative products of Alas's students were on display and were reviewed briefly by the art director, Harold Thomas.

President Dean Maberry announced that revision of the Rotary District, previously scheduled for this summer, will not take place due to widespread opposition from clubs in the district. As proposed, the Illinois area would have been revamped to become part of a large Missouri district.

Announcement also was made that the annual Maundy Thursday

## State OKs Sections Of 15 Streets For MFT

Approval of sections of 15 streets has been granted by the state highway department, according to a letter from State Highway Supt. R. R. Bartelsmeier during Monday night's meeting of the Granite City council.

Bartelsmeier advised the city that the section of Johnson road outside the city limits — from Lindell blvd. to Franklin avenue — was not included, but that the city should resubmit the request as an extension to an arterial roadway.

The letter was referred to the city engineer.

Sections of streets approved for expenditure of motor fuel tax funds for maintenance and improvement are —

Martin street from the south line to 12th street; Johnson road from Lindell blvd. to South road; Amos, Manley, Richmond, Garfield and Lindell avenues from Franklin avenue to Johnson road.

Michigan avenue from Benton street to Troy avenue; Troy avenue from Michigan to Indiana avenue; Victory drive from Namooki road to Marshall avenue; Faith avenue from Marshall to Warren avenue; Warren avenue from Faith to St. Clair avenue; Myrtle and Buxton avenues from Victory drive to Faith avenue; and Herbert street from Alexander street to Namooki road.

### Parking Ticket

An arrest ticket was issued Monday to John G. Obucina, 17, of 3325 Palm avenue, on a charge of parking a motor vehicle on the wrong side of the street at 22nd and State streets, he posted his driver's license as bond.

A meeting of the club will be held as usual at the First Presbyterian Church.

## New Mitchell Street Sign Posts Arrive After Delay

Page 32 Thurs., Mar. 23, 1961

Metal posts for the new Mitchell street signs arrived this week after a three-week delay. The posts will be erected when ground conditions become better, it was decided at a dinner meeting Monday of the Mitchell Kiwanis Club.

The signs were expected to be put up early this month, but the order for the posts had been temporarily misplaced by the supplier, club members said.

In other business the club heard a report from Lee Barker, chairman of the pancake supper to be held April 15 at Mitchell school, that all food has been purchased for the event.

One new member, Roy H. Green, was introduced into the club. His enrollment increases the club membership to 15. All were present at the meeting, during which President Thomas Smith was in charge.

## What Do You Want IN A CITY ELECTION?

Facts and Figures!! — Or a Popularity Contest?

## FIRE STATION FACTS!

One of the three local architects interviewed for building our new fire station recommended a building that would have cost about \$110,000.00 instead of \$333,000.00 and would have only been half as big but still adequate to house all the fire equipment needed. This architect recommended construction costing \$12.00 per square foot instead of the \$20.00 per square foot which the City expended. The balance of the saving would have come from the elimination of unnecessary "frills and ginger bread."

**THIS IS WHAT THE WASTED \$222,000.00 WOULD HAVE BOUGHT —**  
TWENTY-TWO MILES OF SIDEWALK (4 feet wide at \$2.00 per running foot) or FIVE MILES OF CURB AND GUTTER at \$3.50 per foot or 8 1/2 MILES OF SANITARY SEWERS at \$5.00 per foot (for standard 8 inch pipe) or TWO MILES OF STORM SEWER at \$20.00 per foot (for standard 36 inch pipe).

**BOTH DAVIS AND PARTNEY VOTED FOR THE \$340,000.00 FIRE STATION!!**

Now --- how do we get the "power steering out of The Political Machine?"

CONSIDER THIS ---

Four years ago Davis had 4,300 people vote for him and 7,100 vote against him ---

Davis . . .	4,300
Rich . . .	3,800
Portell . . .	3,300

This will happen again unless ALL the opposition vote for the same candidate --- and for the man who came closest to beating Davis last time, viz. Pat Rich.

## GC Council Again Debates Sideyard Limits

With an upswing in construction of garages, experts and room additions to homes expected with the arrival of spring, an effort was made during Monday night's council session to revise an earlier proposal to remove sideyard restrictions in older sections of the city.

No solution was offered during this week's session, but it was recommended the city building inspector might get together with Dr. Seymour Mann of Southern Illinois University, a zoning expert, to seek a compromise for the zoning code.

Several aldermen favored the lessening or elimination of sideyard restrictions from the present five-foot minimum, especially in older areas of the city where there are numerous 25, 40 and 50-foot lots.

Alderman Samuel Whitmer called for the amendment to the zoning code to be resubmitted, but opposition was voiced by Alderman Mrs. Gabrielle Bettine, who pointed out the zoning code was developed after much difficulty, "and there's no reason to pitch it out."

Could Abolish Zoning  
It was brought out, that such lifting of restrictions for certain areas would merely bring about the relaxing of other limitations and eventual abandonment of zoning in the city.

However, Alderman Walter Nomm criticized the city for placing too much control over property owners requiring building permits and setting sideyard restrictions. "It's their own property; yet they can't do what they want."

A solution was proposed by Alderman Samuel Shadlesford that permission be granted to violate the sideyard limitation provided the adjacent property owner was in agreement. This was criticized by Alderman Charles Meyer, who said such a method might prove detrimental to an entire block and other property owners should be considered.

Whitmer said the matter had been before the council several months ago and he wondered what had become of it. Meyer and City Atty. William Beatty said two proposals had been submitted, but the council was unable to agree on any procedure to be followed. The attorney replied that he would prepare another amendment if the council would relate what it wanted to be included.

"The last I knew," Meyer said.

For Insurance Purposes

## Venice School Building Appraisals Authorized

A complete inventory and appraisal of the four school buildings in the Venice school district was authorized Monday night by the Venice school board, which has awarded a \$800 contract for that purpose to the professional appraisal firm of Marshall-Stearns Co., Chicago and St. Louis.

The appraisal, which will require about two weeks to complete, will enable the school district to proceed with plans for revision of its building insurance program.

Lower rates will be sought by the district, with overall building insurance costs likely to rise slightly once replacement costs have been determined by the appraisers.

The district's present building insurance provides an estimated 80% coverage. The insurance program which would be drawn up following the appraisal would provide total coverage, based on what replacement of the buildings would cost today.

The appraisal firm will inventory the Venice and Lincoln high school and grade school buildings under terms of the agreement, listing the current value of structures and their contents and also providing replacement costs in each instance.

Such items as books in libraries and lumber in shop departments will be excluded, since these items are not strictly classified as furnishings or equipment.

The agreement specifically covers only the initial appraisal, but the appraising firm would provide a yearly service to bring inventories up to date at a cost of about \$85, Supt. John O. Plet said.

Driver Pleads Innocent To Two Charges

Pleadings of innocent were entered Tuesday morning before Police Magistrate Gasparovic by Robert D. Johnson, 39, of East St. Louis, who was charged by Granite City police with leaving the scene of an accident and driving while under the influence of alcohol.

Johnson, who was taken into custody by Washington Park police and returned here, was freed on \$350 property bond.

Police received a report of a hit-run accident about 3 a.m. from P. M. Corbett, 20, of Nashville, Tenn., who said he was traveling east on Edgewood road at 12th street when the accident occurred. The rear of his car was damaged. Police said Johnson's truck was damaged about the front and was towed to an East St. Louis garage.

Accident On Lot

Autos of Eva O. Bruton, 20, of 2714 Namodel road, and Frederick B. Durer, 32, of 601 Jefferson avenue, Venice, were involved in an accident Monday afternoon on a lot in the 1900 block of Edison avenue. Police said the Bruton car backed into the left rear fender of the Durer car.

## Unusual Cantata By Niedringhaus Choirs

An unusual sacred cantata will be presented by the choir, congregation and minister of Niedringhaus Memorial Methodist Church at both the 8:30 and 10:40 a.m. services on Palm Sunday, Warren G. Simpkins, director of choir at the church, said today.

Entitled "To Calvary," the cantata will be sung as a part of both morning worship services.

No definite action was taken by the council, other than to suggest the building inspector might confer with the zoning expert who currently is conducting a governmental agency study in Granite City. Dr. Mann was seated in the council room but was not called upon for an opinion.

by the combined youth and choir, includes an anthem, "Jesus, in Thy Dying Woe," by the choir, sung by the choir as a part of the Maundy Thursday holy communion service, spoken by Rev. Vernie Barnett, and Dickinson's "This Glad Easter Day," to be performed at the 8:30 a.m. service on Easter morning by the youth choir and by the choir at 10:40 a.m. Easter morning.

## Fehling Road Lift Station Problem

Permission was given Alderman Charles Meyer during Monday night's meeting of the Granite City council to work with the city engineer toward finding a solution to end an order problem at the sanitary sewer system lift station on Fehling road.

structure placed around the lift station, and extension pipes added later by the street department have failed to halt sewer gas odor complaints.  
 A suggestion was made by Alderman Donald Partney that the brick structure be lower to two or three feet and a "flag-pole" pipe, 30 to 40 feet high, be installed to disperse the fumes higher in the air.  
 Meyer said, "It looks like we'll have to take the brick silt down

**Office of the Mayor**  
 City of Granite City, Illinois  
 Leonard R. Davis, Mayor  
 Office TRiangle 6-1237  
 Residence TRiangle 7-0120

To: The Residents of Granite City

On April 4th, 1961, the voters of Granite City will elect the man who, in their opinion, is best qualified to serve in the capacity of Mayor during the next four years. A candidate who seeks re-election should run on his record. This, I am proud to do! I do not choose to attack my opponents either as to their character or as to their integrity. An election should not be a contest of slander but of merit.

Our city has grown in population, in area, and in achievement. We have a new \$1,300,000 hospital, a \$5,000,000 office building, and a new fire station paid for out of sales tax revenue, not property taxes. We are all thankful for six new industries employing over 2000 local people, 3000 new homes, a new, well lighted Madison Avenue, and a new Post Office coming in the next few months. We can all take pride in this record of growth and progress in our city.

It has been an honor to have served as Mayor during the period when all of these things have been accomplished. With your confidence and help, I shall continue to do my part in making Granite City a fine place to live.

Sincerely,  
 Leonard R. Davis
